

battle for liberty and continued existence; for one who knows not that these same European Allies are battling even to death that the United States may become the first nation of the universe; for one who knows not that England and France love the United States far more than any sodden-brained Hyphenate ever has, or ever will love her. The administration of the adequate and proper words of scorn to the cringing Hyphenate, haled suddenly before James Beck's "Court of Universal Public Opinion," I leave to the able editor of the *New York Times* who has had vastly more practice in writing about Hyphenates than has this writer, and Patriot.

BOOK REVIEWS AND NOTES.

PROTEST AGAINST THE CRUEL WAR; OR, PROPAGANDA TO CREATE A STRONG PUBLIC OPINION AGAINST THE WAR. Published by the author, *Peter Filo Schulte*, Box 43, Cedar Rapids, Iowa. Pamphlet, 20 cents, postpaid.

This work treats the war and peace problems from the monistic view of life. The work is a poignant denunciation of the great war. The author states that the continuation of the war means only the continuation of the killing, suffering and destruction, and that no matter what the outcome of the war the result cannot be lasting. The author declares that permanent peace in the future is attainable only by the formation of a combination of the United States and the chief nations of Europe and the establishment of an international court. Significant are the articles, "Do the People Want War?," "Facts and Figures about World-Life," and "Monistic Ideals." If a person states conclusions that the people like he will receive support and a blind following; but if a person states the hard facts he is likely to receive abuse. The author emphasizes that it is necessary to face the facts and to work accordingly to avoid world-perils like the present great war. π

Our readers will understand that we are not responsible for opinions expressed in our advertisements; further, that it would be positively wrong to exclude advertisements because we do not agree with their statements. For instance in publishing the advertisement of the National Association of the Universal Religion we do not intend to defend the practice of bigamy, nor on the other hand do we wish to suppress the announcement of Mr. Kheiralla's book, especially as it offers "an effective reply to the attacks of Robert P. Richardson" which appeared in *The Open Court* of August 1915 and November 1916. At the time of their appearance we had asked the head of the Bahaists in this country, His Excellency Dr. Zia M. Bagdadi, to refute Mr. Richardson's criticism, and now see incidentally that such a reply is made public in Mr. Kheiralla's book. All direct replies which we received from Bahaists, including Mr. Kheiralla himself, have been given publicity in the columns of *The Open Court* from time to time.

Our frontispiece represents the wandership of Captain Dahul which is a type of Flying Dutchman. The gruesome story of this bloodthirsty pirate was told by Mr. Wilbur Bassett in the January number where it was accompanied by copious notes of the folklore of this tale, including also reference to the Wandering Jew legend.

PHILOSOPHICAL PROBLEMS IN THE LIGHT OF VITAL ORGANIZATION

By EDMUND MONTGOMERY

Cloth \$2.50

Both Materialism and Idealism are regarded by Montgomery as inadequate interpretations of Nature: Ideal states, as such, possess no causal efficiency, while inert particle, or units of any kind, mechanically moved, possess none of the endowments of true reality. The perceptible world displays power-endowed, combining, interacting, and interdependent real existents.

Constructively Montgomery essays to show what kind of perduring and efficient entity really underlies the fleeting phenomena of consciousness, what abiding matrix issues them into actual awareness and harbors them as memorized and systematized knowledge. This matrix the author finds to be a product solely of vital organizations which, in turn, is regarded as consisting not in the structural aggregation and functional cooperation of autonomous cells, but in the phyletic elaboration of an individuated whole, adjusting itself more and more adequately to its environment.

Thus a new solution is offered to the problems of substantiality and identity, while rational and ethical conduct are likewise shown to be wholly dependent upon vital organization.
