Governor of Massachusetts Issues Proclamation For 156th Anniversary of the "Boston Massacre"

Proclamation
One hundred and fifty-six years ago, on the fifth day of March, there occurred what is known in history ast he Boston Massacre. Resentment aroused by unjust taxation without representation had created a bitter feeling between the citizens of Boston and British soldiers quartered within the confines of the city. It culminated in a crisis out of which resulted the killing of five citizens outright and the mortally wounding of two more by the soldiers who had fired into the crowd.

The Advocate does not necessarily share in Kits Reid's views, but whether we do or not, her opinions are sane, and logical and well worth reading. It is your privilege as well as ours to disagree with Kits, and she invites your opinion upon the subjects she discusses from time to time in her column.

Oh, dear, I'm so discouraged. I've been trying so hard to make this colbeen trying so hard to make this col-umn a sweet ladylike affair, and each week some atrocious thing lifts up its hideous head in Congress or out of it, and I've got to use up this val-uable space to tell about it. I'm sure that many of The Advocate's readers would rather have a column of para-graphs on the latest styles or some graphs on the latest styles or some new cake recipes or some instructions on bridge and five hundred. So many of us agree with the member of a prominent woman's club who objected the other day to the club's hearing the other side of a question of deep public interest "because it will get us into such a mess." Just pain slovenly habits of thought. We don't want to be made to think and each week some force keeps jabbing at me to keep on "getting into such a mess."
