# WHAT THE "BAHAI" MOVEMENT REALLY IS

Editor Advertiser:—As public attention is being called to the "Bahai movement," a brief sketch of the early history of the sect may be of interest to your readers. The best authorities on the subject are Count de Gobineau's great work on the "Religious and Philosophies of Central Asia," and the works of Prof. E. G. Browne, lecturer in Persian to the University of Cambridge.

The Persians never thoroughly assimilated the religion of Mohammed, and never forgot that it had been forced upon them by the sword. A product of the Arabian desert. It was

The twelfth Imam (the Mahdi) disappeared from earth in 937 A. D., but is expected to come again in power, and right all wrongs. Another result of the inherent antagonism between the Arab and Persian modes of thought was the rise of the Sufi mystical philosophy, which pervaded Persian thought. It is at bottom a pantheistic p

Tokyo fell victim to a violent earthquake just before noon today. Two-thirds of Toyo burned when thousands of wood-fueled cooking fires spread flames throughout the city. Thousands have lost their lives and the body count continues to rise. Nearly one million people are homeless. Scarcely anything can be found to eat.

A spokesman for the International Red Cross promised relief supplies would be airlifted as soon as conditions permit.

Count P.W. Tanaguichi met with military authorities today to set up security zones in the areas most seriously affected by the quake.
